

Find Your Voice

Voice: the Fundamentals

In this four week online course we'll focus on building vocal dexterity. It will involve physical exercises alongside creative work. You will work individually and with others. The sessions will be playful and social spaces, but will also include regular individual feedback on your voice and your vocal delivery of scripts. The scripts and class will all be in English, so a reasonable level of English is required. By the end of the course, you will have a greater understanding of your vocal health, your vocal habits, and how to develop and use your voice for more engaging, authoritative, delivery.

This course will be valuable for actors and business professionals alike.

In this course you will learn:

Exercises to build breath capacity

Techniques to improve vocal support

Develop your resonance to offer greater authority to your delivery

Articulation exercises to improve your diction, lending clarity to your delivery

Pitch, pace, and rhythm work for more engaging speech

Each class will involve

Physical warmup of the voice

A focus on one of the key tools for vocal dexterity: breath, resonance, diction, cadence.

Creative work with a different script each week

Individual or group work practicing the tools we are learning

Feedback and/or redirection

You will need

Zoom installed on your laptop

Somewhere private to work during our classes

Approximately 1m square in front of your laptop to work in

This will be an interactive, participatory class: your camera and mic will both need to be switched on.
